## Class Descriptions

**Tap-** In Tap students will experiment with rhythm and music with their feet. As tap dancers progress the exercises & choreography becomes more intricate. In Tap you are the instrument and timing is everything. We use the **Al-Gilbert syllabus** for all of our tap classes.

**Jazz-** Jazz is a high energy style of dance where students will develop strong control over their body & increase their flexibility. Students will also learn how to add style to their movements. As students progress they will be introduced to more of a variety of jumps, turns, & intricate choreography.

**Ballet-** Ballet is an elegant & graceful style of dance. It is the foundation for all forms of dance and students develop a strong upper body, core, posture, balance, & precise control of their arm movements. We use the **Cecchetti syllabus** for all of our ballet classes.

**Pointe-** Is a specialized study of ballet for intermediate & advanced dancers who have the correct posture & strength. Students must be enrolled in ballet technique.

**Lyrical-** Lyrical is a smooth & flowing form of dance that mixes together elements that are learned in Jazz & Ballet. A strong sense of balance & control is required. Lyrical may branch off into contemporary or modern styles. For ages **8 & up**. Students are required to take jazz and ballet..

**Hip-Hop-** Students will learn choreographed routines with street dance elements to hip-hop music with an emphasis on musicality. **For ages 5 years or older.**

**Acrobatic Arts-** is a blend of dance and acrobatic elements. Through skill progressions students work on balancing, flexibility, Aerials, back hand springs, contortion and strength. We strongly recommend that students enroll in Jazz and ballet in addition to Acro. For ages **6 & up**.
